# VALVES & ACCESSORIES

## GATE VALVE

Our gate valves are built for high-performance fire protection systems. With clear open/close indication and low pressure loss, they ensure reliable operation in critical conditions. Certified to NFPA standards, they're the trusted choice for safety-focused installations."

**Reliable**

## CHECK VALVE

Our fire-rated check valves are your silent guardians — preventing backflow and ensuring seamless operation when every second counts. Built for reliability, trusted for safety.

**Reliable**

## ALARM CHECK VALVE

Our Alarm Check Valves combine flow control and alarm activation in one dependable unit — delivering instant response and trusted performance in wet fire sprinkler systems. Precision-built to safeguard lives and property."

**Reliable**

**COMPANY TO TRUST**

# VALVES & ACCESSORIES

## NON-RISING SYSTEM

A Non-Rising Stem (NRS) gate valve is a type of valve in which the stem does not move up or down as the valve opens or closes. Instead, the stem rotates in place, and the gate (or disc) moves internally to control the flow of fluid.

## FIRE HYDRANT

Our high-performance Fire Hydrants are engineered for rapid response and maximum reliability during fire emergencies. Designed to meet international safety standards, they ensure efficient water flow, easy operation, and long-lasting durability—even in the harshest environments.

## BUTTERFLY VALVE

Compact, reliable, and easy to operate — our butterfly valves ensure smooth flow control and tight shutoff for fire protection systems. Engineered for durability and performance in high-pressure environments.

# VALVES & ACCESSORIES

## AIR RELEASE VALVE

Our air vents automatically release trapped air, enhancing system efficiency and preventing damage. Made from durable, corrosion-resistant materials, they offer reliable performance with leading brands in water and fire protection systems.

VAL'MATIC

## TAMPER SWITCH & FLOW SWITCH

We provide premium-quality tamper and flow switches, trusted for their precision and durability. Our selection includes leading international brands, ensuring maximum reliability and compliance with the highest fire safety standards.

POTTER

Safe Signal

## FIRE DEPARTMENT CONNECTION

Our Fire Department Connections are made from premium materials and are among the top brands in the market. Offering durability, corrosion resistance, and reliable performance, they're perfect for high-demand water and fire protection systems.

**COMPANY TO TRUST**

# VALVES & ACCESSORIES

## BALL VALVE

We offer high-quality ball valves from renowned brands such as Mobiak, Giacomini, and Itap, ensuring reliability and optimal performance for fire-fighting systems.

## TEST & DRAIN

Our test and drain valves from top brands like Rapidrop and Giacomini are designed for efficient system testing and drainage, ensuring reliability and compliance in fire protection systems.

## PRESSURE GAUGE

We offer high-precision pressure gauges from trusted brands like Rapidrop and Winter, ensuring accurate pressure monitoring for optimal fire protection system performance.

**COMPANY TO TRUST**

# FITTINGS

## THREADED FITTING

Our threaded fittings are designed for superior strength and leak-proof reliability, meeting the highest industry standards.

Certified by UL and FM, they provide trusted performance for fire protection systems, ensuring safety and compliance with global quality standards.

## WELDED FITTING

Designed for superior strength and secure, permanent connections, our welded fittings ensure exceptional durability and performance in demanding fire protection systems. Perfect for high-pressure applications, they deliver reliable, long-lasting solutions for your fire safety needs.

## GROOVED FITTING

British-made quality you can trust. Rapidrop grooved fittings offer fast, secure, and leak-free connections—perfectly suited for Egypt's demanding fire protection projects. Trusted by engineers, preferred by contractors.

**COMPANY TO TRUST**

# ***FIRE HOSE CABINET & EXTINGUISHER***

Our Fire Hose Cabinets are designed for rapid response and durability in the harshest environments. Made from high-quality steel or stainless steel, these cabinets ensure long-lasting performance while keeping your fire hose reel protected and ready to use in emergencies.

we don't just sell fire extinguishers — we deliver peace of mind. Our premium fire protection solutions are crafted with precision, engineered for reliability, and trusted in the moments that matter most. From commercial towers to industrial sites and residential spaces, our extinguishers stand as a first line of defense against the unexpected. We combine cutting-edge technology with strict quality standards to ensure unmatched safety and performance.

***COMPANY TO TRUST***

# SPRINKLERS

At Triple A for Trading, our fire sprinkler systems are designed to respond instantly and act decisively. We proudly offer some of the world's leading sprinkler brands, known for their reliability, precision, and superior performance.

With advanced engineering and intelligent design, our systems deliver automatic fire suppression that protects lives and property around the clock. Whether installed in commercial buildings, warehouses, or residential complexes, our sprinklers meet international safety standards and integrate seamlessly into any environment. At Triple A, we don't just install systems — we deliver world-class protection, peace of mind, and unwavering commitment to safety.
